MEDI INAL.

This important organ weigh, but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased brown color. The stomach becomes diseased and Dyspepsia, Indigestion, Constipation, Headache, Editousness, Jaundice, Chilla, Malarial Fevers, Poles, Sick and Sour Stom ach, and seneral debility follow. MER-RELL'S HEFATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from the to two ounces of bile each time the bland reases. throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown, dirly looking akin, will astonish all who try it—they being the first symp toms to disappear. The care of all billious diseases and Liver complaint is made certain by taking Hepatine in accordance with directions. Headacho is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given. Take no pills when you can get Hepatine at the same price. For sale by

Hepatine at the same price. For sale by all Druggists. PRICE 25c and S1.

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one third of all death's victims, arises from the Opium or Morphino treatment, which simply stupefles as the work of death goes on. S10,000 will be paid if Opium or Morphine or any preparation of Opium, Morphine or Prussic Acid can be found in the files of the control o the Globe Flower Cough Syrup, which has cured people who are living to day with one cured people who are living to day with one remaining lung. No greater wrong can be done than to say than Consumption is incursible. The GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also Colds, Coughs, Asthma, Bronchitis and all diseases of the throat and lungs. Read the testimonials of the Hon. Alex. H. Stephens and others in our book—free to all at the drug stores. Take no Troches or Lozanges for Sore Threat, when Troches or Lozenges for Sore Throat, when you can get Globe Flower Syrup at same price. For sale by all Druggists. FRECE 25c and \$1.

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofuls, Syphilis, White Swelling, Ulcerous Sores and Skin Disease in a thousand is treated without the use of Mercury in some form. Mercury rets the bones, and the diseases it produces are were then any other kind of blood or skin disease can be. Doctor PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and barmiess can be found in it. Price by all Druggiets S1. A. F. MERRELL & CO., Props., nov 7-ly Philadelphia, P.

WILL OURE SHEUMATISM. Mr. Albert Crooker, the well-known drug-gist and spothecary, of Springvair, Me, always advises every one troubled with R beumatism to try VEGETINE.

READ HIS STATEMENT:

Springvale, Mo., Oct., 12, 1876. Mr. H. P. Stevens:

Dear Sir,—Fifteen years ago last fall I was taken sick with rheumatism, was unable to move until the next April. From that time until three years ago last fall, I suffered everything with the property of the wasks. years ago last fall, I suffered everything with rheumatism. Sometimes there would be weeks at a time that I could not step one step; these attacks were quite citen. I suffered everything that a man could. Over three years ago last spring I commenced taking VEGETINE, and followed it up until I had taken seven bottles; have had no rheumatism since that time. I always advise every one that is troubled with rheumatism totry VEGETINE, and not suffer for years as I have done. This statement is gratuitous as far as Mr. Stevens is concerned.

Yours, etc., Albert Crooker. Firm of A. Crooker & Co., Druggists & Apoth-

是一面。但一面,面 HAS ENTIRELY CURED ME. Boston, Oct, 1870.

Mr. H. R. Stevens:

Dear Sir.—My daughter, after having a severe attack of Whooping Cough, was left in a feeble state of health. Being advised by a friend she tried the VEGETINE, and after using a few

bottles was fully restored to health.

I have been a great sufferer from rhoumatism.

I have taken several bottles of the VEGETINE for this complaint, and am happy to say it has entirely cured me. I have recommended the VEGETINE to others with the same good results. It is a great cleanser and purifier of the blood; it is pleasant to take and I can cheerfully recommend it.

James Morse, James Morse, 201 Athens Street.

RHEUMATISM IS A DISEASE OF THE BLOOD.

The blood in this disease, is found to contain an excess of fibrin. VEGETINE acts by converting the blood from its diseased condition to a healthy circulation. VEGETINE regulates the bowels which is very important in this complaint. One bottle of Vegetine will give relici; but, to effect a permanent cure, it must be taken regularly, and may take several bottles, especially in cases of long standing. VEG-ETINE is sold by all druggists. Try it and your verdict will be the same as that of thous ands before you, who say, "In ever found so much relief as from the use of VEGFTINE," which is composed exclusively of Barks, Roois and Herbs.

and Herbs.

"Vegetine," says a Boston physician, "has no equal as a blood purifier. Hearing of its many wonderful cures, after all other remedies had failed, I visited the Laboratory, and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are comwhich is highly effective, and they are com pounded in such a manner as to produce as-

SCHOOLROOM HEADACHES. - Many people who have public school teachers among their acquaintance are firmly of the opinion that the schoolroom has a headache system all its own, and their impression would be strengthened if they were to interview boys and girls. There is nothing strange about the complaint; the orly wonder is that it is not continuous and that anybody escapes it. With systems of heating and ventilation that are almost uniformly defective, and, worse yet, under the control of janitors who have no knowledge whatever of these departments of their business, and who are as apt as any other men to neglect or despise whatever they do not understand, many of our schoolrooms are boxes almost hermetically sealed, into which hot air is being driven and compressed. The heat is frequently intol-erable, the expired breath and other physical emanations of the children pollute the air to a degree extremely dangerous to health, so teach. ers and children, who, at nine o'clock entered the room in fair health and spirits, emerge at noon with listless step, aching head and deranged vital organs. Should a teacher's nature protest against breathing in poison and swelter. ing in it, up goes a window, and straightway all the children in its immediate vicinity are chilled and temporarily relieved from one danger only to submit to another. The condition of the air of schoolcooms is no secret to boards of education; it has been the subject of some statistics, by experts, which forcibly suggest the Black Hele of Calcuita; but what is or has been done to remedy it? How many teachers are competent to use such ventilating facilities as their rooms pessess? Their own frequent headaches and those of the helpless children show that the number is very small, and the same effects indicate that but few japitors need fear to compara their records with that of the late lament. ed King Herod .- N. Y. Herald,

Now is the time for those who wish to set trees or plants to order them. Strawberries set now, and covered with fine manure or straw, will make an early start in the spring and can also give a partial crop of fruit. Raspberries should always be set in the fall if possible; they push their bads in the spring before the ground is dry enough to cig them, and, asthey are very render, it makes them difficult to handle without breaking. In the fall these buds are dormant, the roots are mature, and not nearly so many will be lest in transplanting. We planted an acre in the fail at one time-simply checked off the ground both ways with a plough and dropped the plants at the intersections and covered with a ho; we had no place to freeza out and all grew finely, making much stronger growth than others planted the spring following. A good way is to throw a forkful of maoure over the plant after setting. This can be done after the ground freezes, or any time during the wieter. Parties living south should always order in the fall, as their season is so much earlier than ours that by the time plants can be taken up here it is too late for them to plant. Roots or plants arow during winter, although the top has ceased; so plants set in the fall obtale a firm hold during the wet season, and are ready for an car 7 start in the spring. We have always advocated setting orchards in the fall. The thriftiest erobard we ever had was planted when the top of the ground was frezen an inch deep. We had to out the ground with an ax to dig holes, and we did not lose a single tree, while of an orchard set the spring following ten per cent, died .- Farmer's Home

THE WIFE OF HENRY CLAY,-Mr. Geo. W. Ranck has contributed an article in which

he says: "What Ashland would have been but fer Mrs. Clay the Lard only knows, for her husband was at the capital of the nation more than haif the time. She attended to everything, iccluding five sons, who, according to their old teacher, Amos Kandall, were not the meekest of the lowes that gambiled at Ashland. She managed the farm with its crops and live stock, her household affairs, a large family of children, and not a lew negro servants, so well as to assist largely in keeping up Mr. Clay's fortune, which was constantly subjected to heavy drains. She often pulled the finest of her vegetables with her own hands, and sent them, with butter, milk and fruit, regularly to the market to be sold. She often said, 'My children laugh at me for selling such things, but they never object to the money I get for them. Her treatment of her slaves will be judged from her custom of rewarding them at the close of the week in proportion to their industry and good conduct. Saturday evening at Ashland was synchymous with Mrs. Clay's business table covered with little piles of silver money. The wife of the great commoner eared nothing for general and fashionable society, and it was fortunate, under the circumstances, that she did not.'

Went farther and fared werse is often heard, but too late ; could have done much better at Dealham's.

NOVELTIES IN DRESS BOOTS AND SHOES .-The most elegant assortment of the latest styles Boots and Shoes ever seen in this country, comprising all the latest fashions.
